1. Application Development & Modularization -

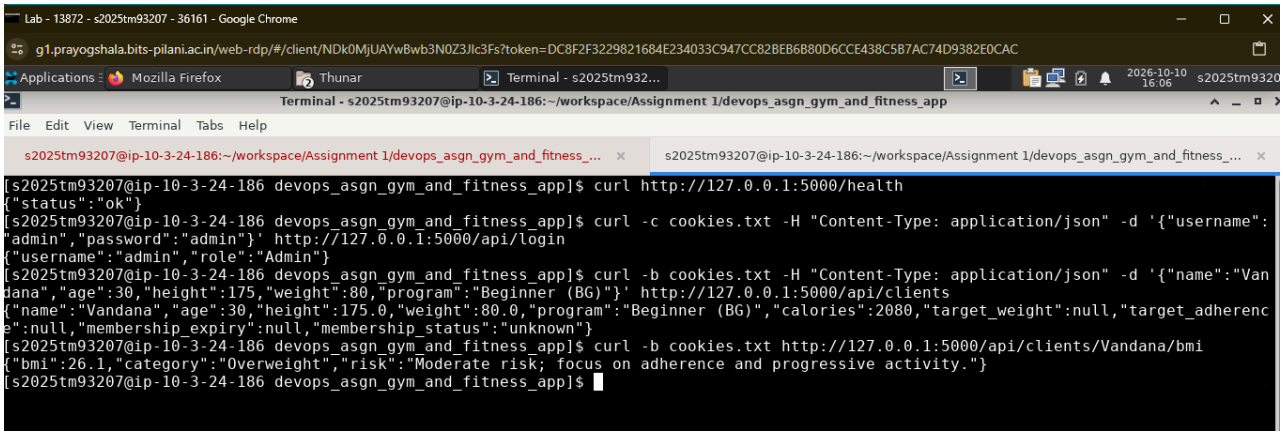

a. Github repo link - https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app

b. Flash App running on Prayogshal VM -

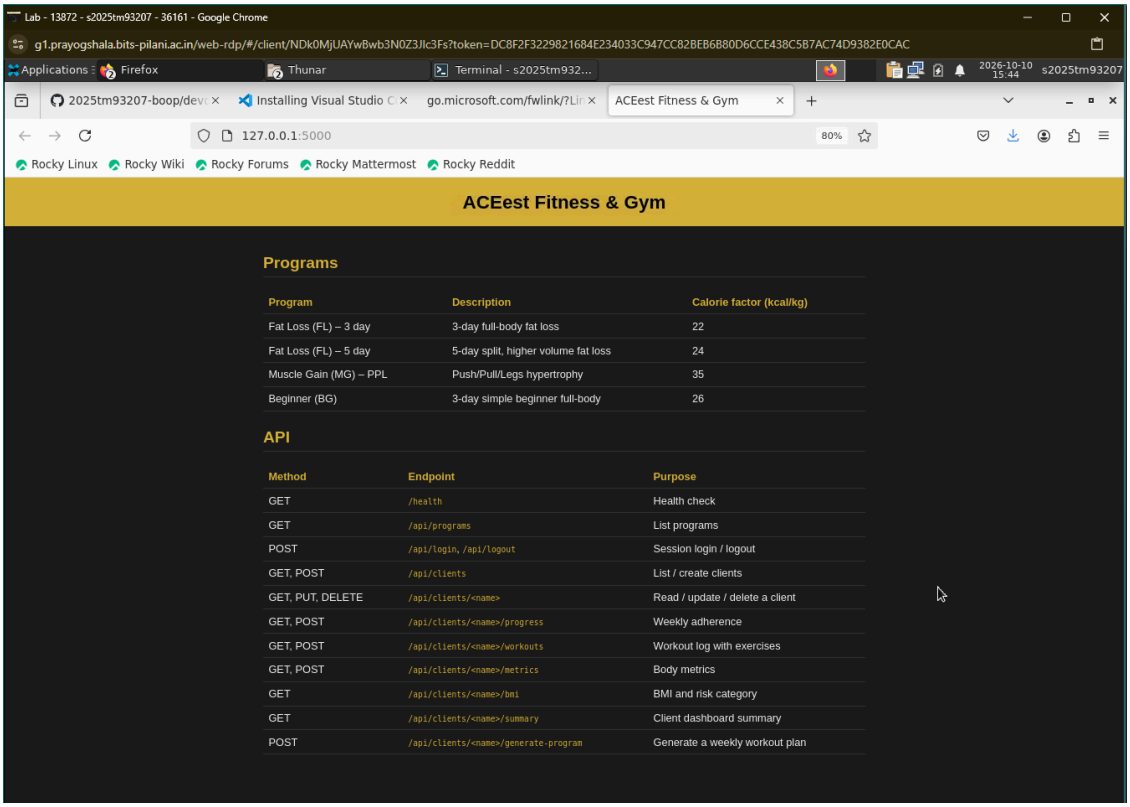

c. API test -

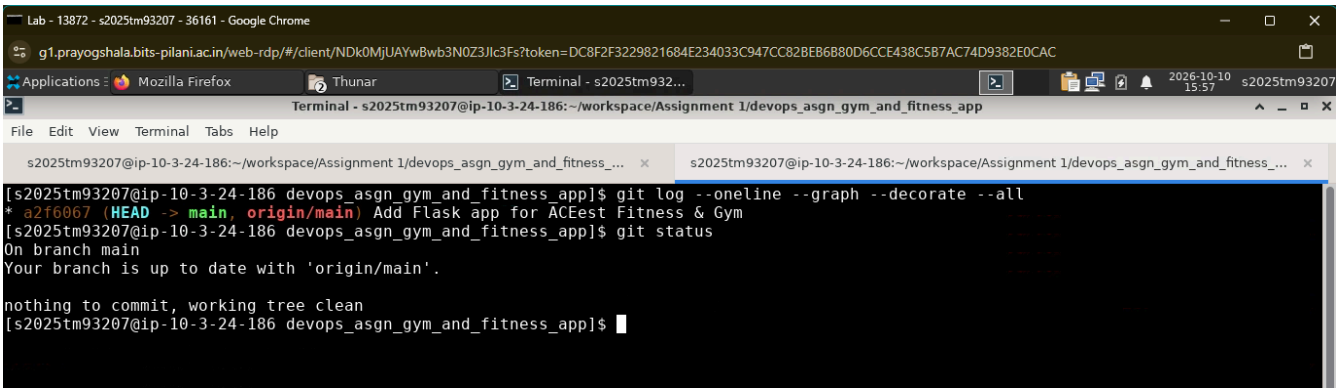

d. Flask App APIs -

2. **Version Control System (VCS) Strategy** -

a. Git log -

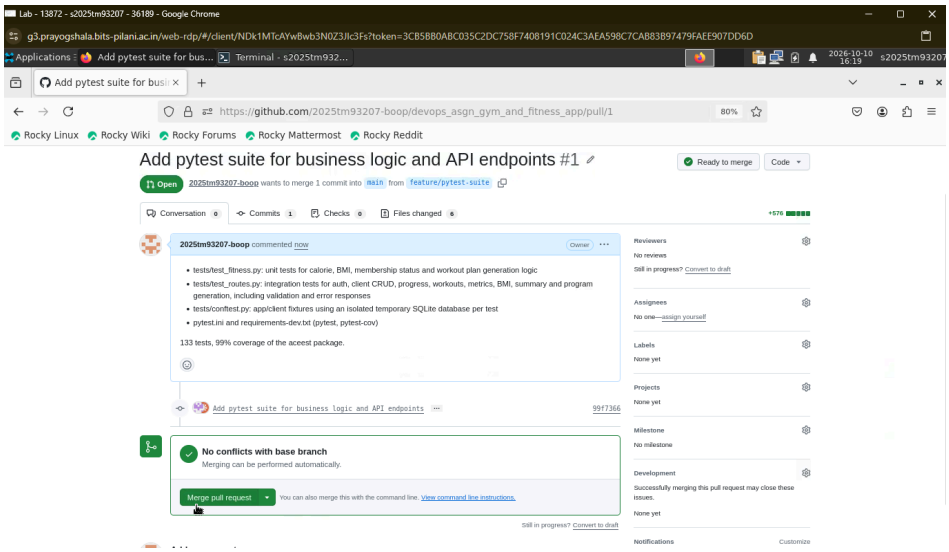

b. Feature branch and version history -

Branches - https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app

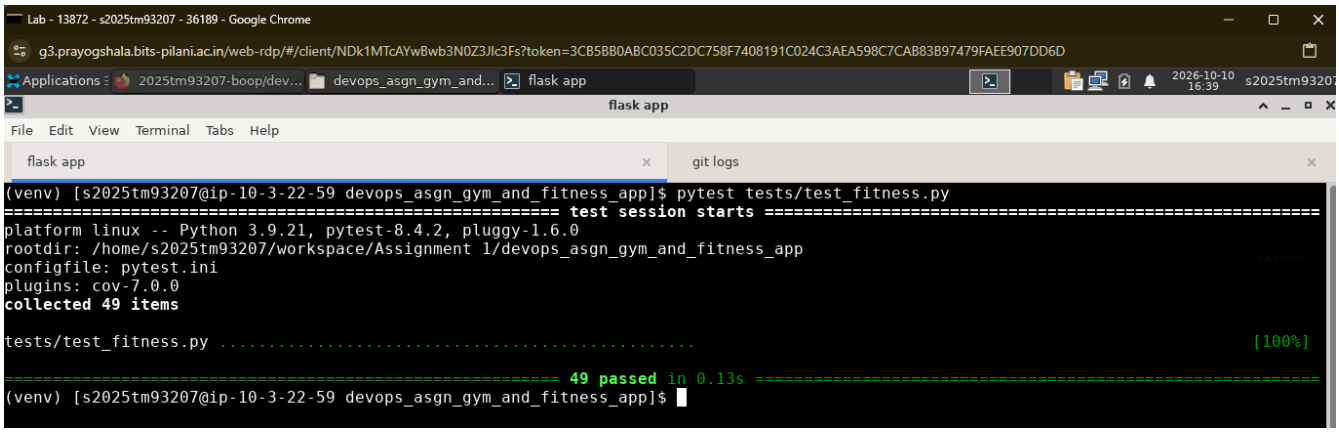

Commit history -

c. Merged pull requests - https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app/pull/1

3. **Unit Testing & Validation Framework** -

a. Pytest code and logs - https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app/tree/feature/pytest-suite/tests

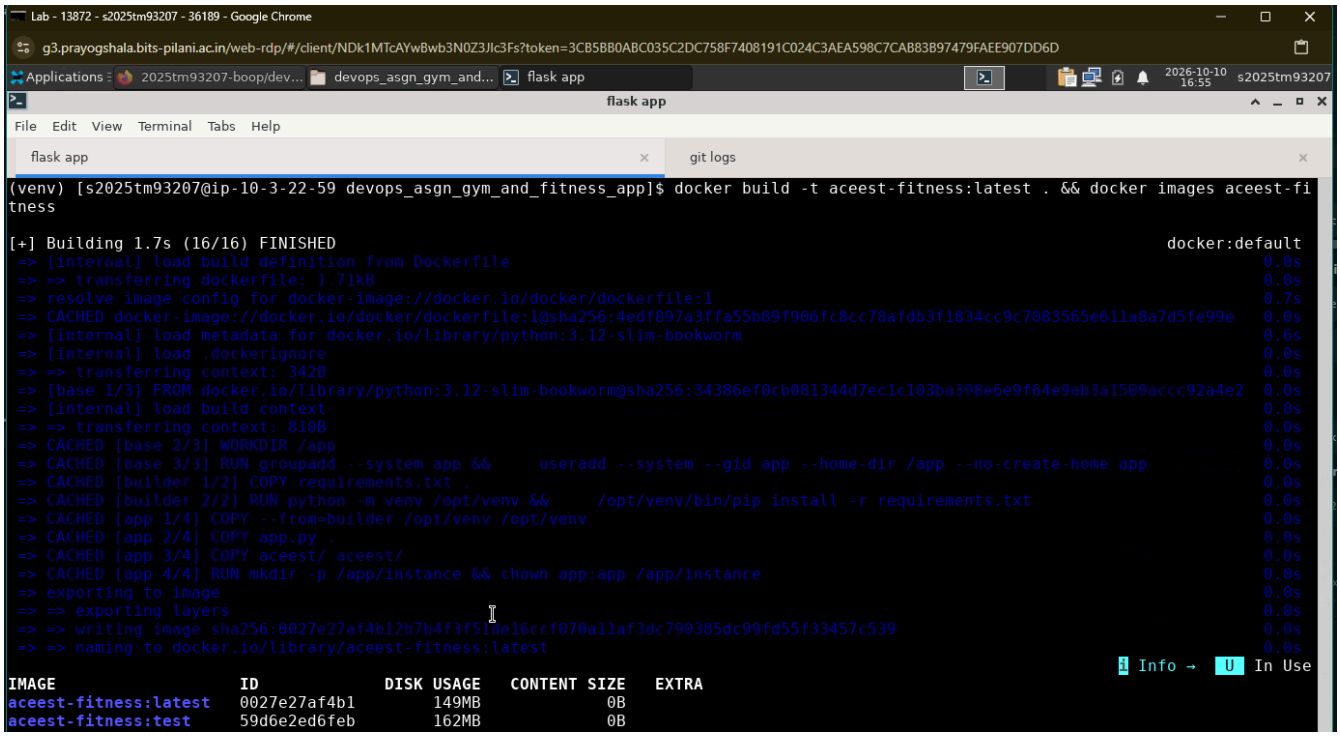

b. feature branch - https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app/tree/feature/pytest-suite

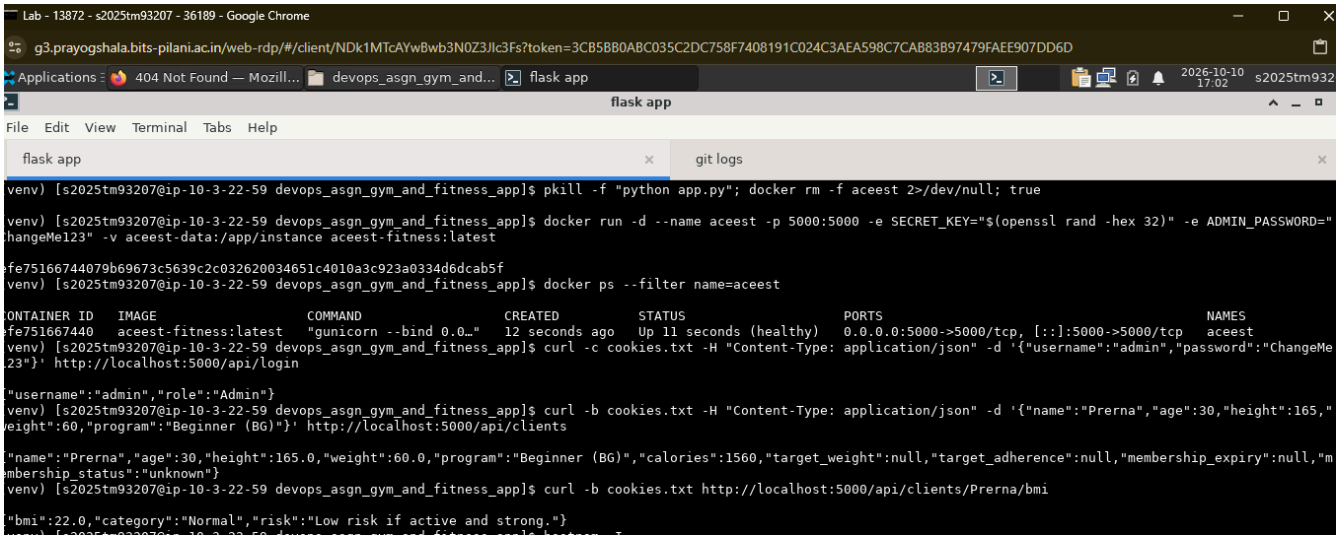

4. **Containerization with Docker -**

a. feature branch: https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app/tree/feature/docker

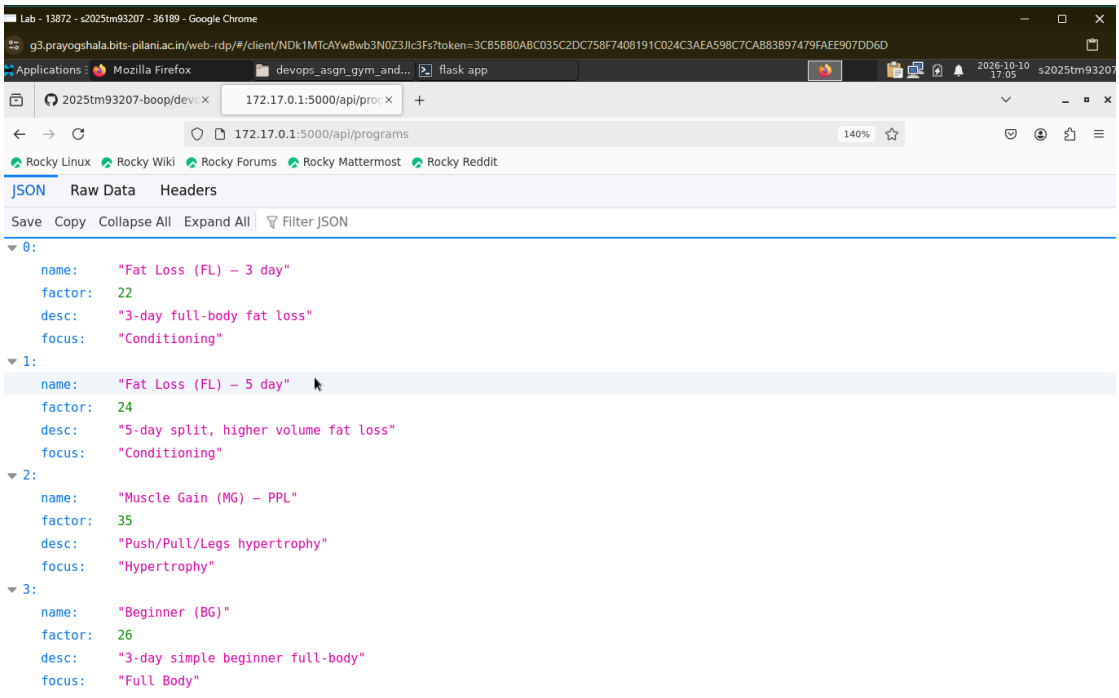

b. Application docker image -

c. App running on docker -

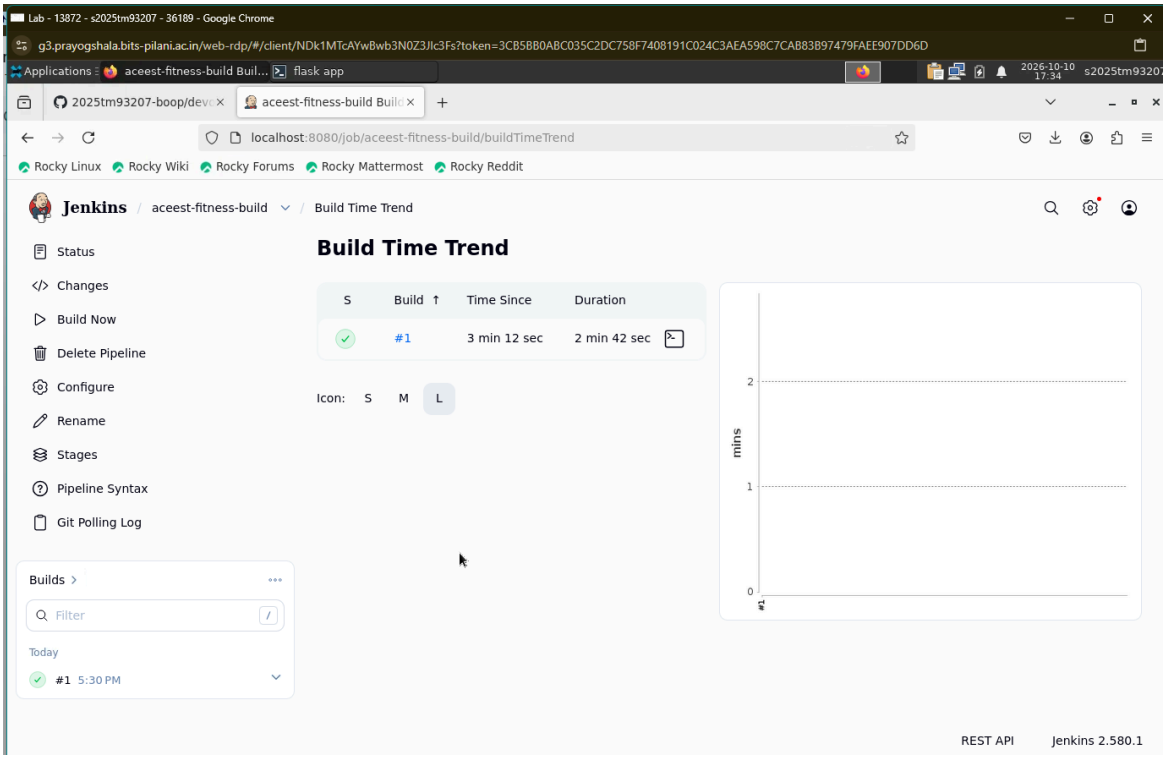

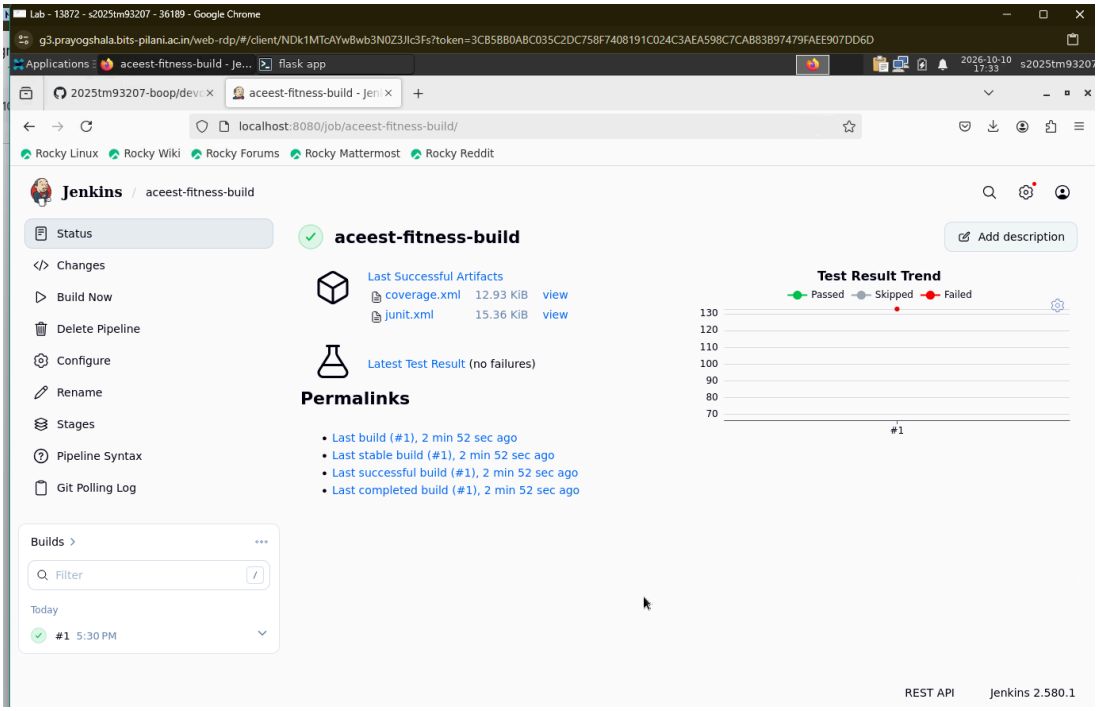

d. API test for docker host -

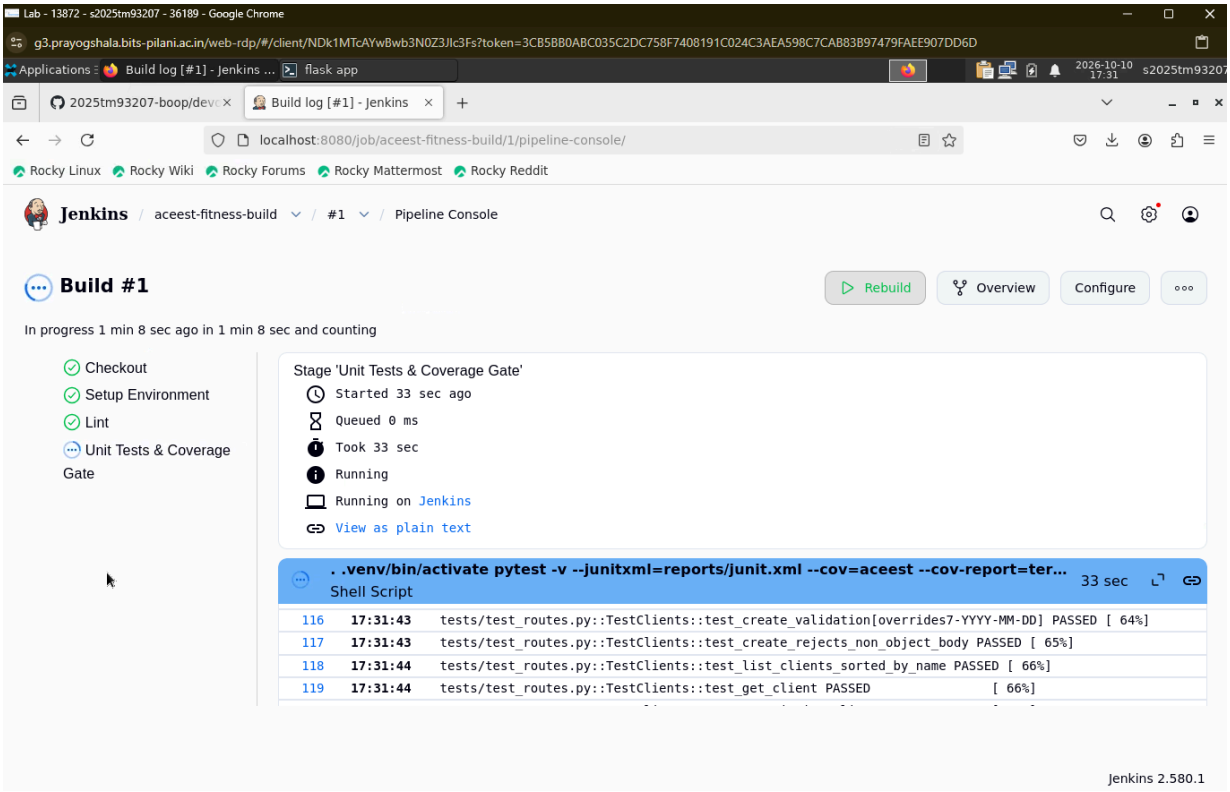

5. The Jenkins BUILD & Quality Gate

a. Jenkins build -

Build logs -
https://drive.google.com/file/d/17PghdYgR6QckC-rl8R6qG-Kn-Wrrne_r/view?usp=drive_link

6. **Automated CI/CD Pipeline via GitHub Actions** -

a. Docker build and test pipeline - https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app/actions/runs/38051325875

b. Workflow file - https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app/actions/runs/38051325875/workflow

c. feature branch - https://github.com/2025tm93207-boop/devops_asgn_gym_and_fitness_app/tree/feature/github-actions
